FROM La Tuna with love

12 January, 2008

For some this will be hard to read, and for me it is a little hard to write. Please understand, for me this is the destiny for which I have trained since at least 1988, and gladly walk this path.

Wayne Bentson is here with me for just one more week, and I have enjoyed and profited from our time together. I could not put all of his helpful information into the Certiorari; because it was not made an issue in trial. I had to come here to complete my education in that regard.

The sobering thought for today came in the middle of the night as usual, and Wayne acted as the second witness this morning at breakfast.

Once the treason complaint on the judiciary, and the Certiorari are filed and served, the most expeditious path for the tyrant would be my early demise. The thought came with Claiborne from last year; after the Oral argument, and before the decision was published it was made moot by Claiborne's death. Was that of natural causes, or stimulated by others.

The way tyranny always works is that it always increases until the people realize it will cost them less to overthrow the tyrant than to suffer his ill tyranny. America came to that resolution in the late 18th Century, and we all hope that America returns to that Great Awakening Sense of rightful government in the near future. Perhaps these two acts of one simple man will be a part of awakening our America to her greatness as the NATION WHOSE GOD IS THE LORD with NO SOVEREIGN BUT GOD AND NO KING BUT JESUS!!!!

Storey's commentaries on the Constitution says that if it is not God's Law it is no law at all, but only the work of petty men in their vanity.. Yes that is two separate parts of the book many pages separated. It also aligns well with Ecclesiastes about the vanity of men, and our single duty, or whole order.

I am well aware, as I have often and openly declared since 1988, that so long as God wills me live all the forces of men can not kill me; so I do not write this sobering message in fear but in gladness, that as my series of 7s continues, next year, 2009 should and will be a great year for God and for me. This Certiorari could be one of the few Propria persona petitions heard without the corruption of a woe unto ye lawyer in some time with real substance of law.

Yes! I am aware that my words are not your words; but they are

as Jesus promised and directed, highly guided by the Holy Spirit, even the Spirit of Truth. When I sit to write, I do so openly in submission and prayer to the things HE wants to have said.

This petition for Certiorari, when it is filed will be published over the internet as will all the other details as they happen. Perhaps this will all come to you simptaneously, and perhaps one behind the other. It appears that someone is tampering with my mail as I have received just 3 letters from friends since my return three weeks ago. It would not surprise me to find that the post office here is the culprit. I made a critical mistake of not having all your letters held for my return, instead having them returned to you. I do so hope I have not hurt you, or our friendship by that little oversight; but I went from here in the hope and desire to soon see you and not need those letters, trusting God for your hugs instead.

In October, 1992, in a mens conference in Colorado, I told a group of men that if they heard I was under siege like Ruby Ridge they should engage in fasting and prayer that not my will but God's be done. I am wellprepared to go on to my next assignment outside the bounds of time and the earth; but still not anxious to leave you behind or any task undone which God may will me to complete her in this little experiment called time. As this Certiorari, and the Judicial Complaint wind their way through the process will be a good season for frequent fasting and prayer. God has brought me up for this task for over 26 years, and matured me to HIS purpose, not mine.

This is the land I believe HE wants to heal.

There may be a better way to end the petition, or I may have left out some critical idea. I know I did not spend a lot on 6th Amendment, Apprendi, or Cunningham; but for all of us the jurisdiction is so much more important. Teh 6th is just a petty abuse inside the gross abuse of powers never granted inthe first place. That is just a symptom of the system that declares openly "lets not forget he was convicted of 39,000, we enhanced him to 8.6 million" or "none of that law applies to you". A tyranny that sets itself so above the law must soon fall of its own ego and weigt, parasites always kill the host; and after all it was Joe IZEN, Houston Attorney who declared more than a decade ago that he was just a parasite on society. Jesus had it right, and they have not improved, except for a few rare esceptions, just a few in any generation to whom truth actually

matters more than their pride, prestige and profit.

At La Tuna the saga continues with our most openly homosexual officer accused this week of sodomy rape against an inmate. Of course the inmate was secreted off to the hospital for a rape kit, and placed in segregation aka the hole or solitary confinement for his own protection so that whatever happens to him there can be no further witnesses of the corruption and criminal activity. I am about to set off another round of staff reports myself, perhaps tomorrow. For today I am concentrating on getting the certiorari cleaned up and sent out to one or two who will help get it into a computer and prettied up for mailing in the next week or two.

I have considered an alternate ending much like different books and movies; to reshape the summary argument with a little of this sober declaration as to my possible future.

Yes, I want to be here, and home, and free with my loved friends and family. Yes, I want to continue my mission and ministry for God and Country. But frankly, little of that is my decision, and however it turns there can be no compromise of truth for expeditious purpose. I know God is more than capable of taking care of all of you without my help, but continue my desire to be a part of His great help to you.

This morning as I entered the library to start this one of our convict lawyers, here for drug trafficking, because his lawyer retirement was not enough decided to launch an assault at me for what I said in the appeal having no effect, not realizing of course that not one word or idea of what I said or thought was in that Appeal, only the soldout lawyer. We have 5 here at the moment, a good start but far too few to change the culture of fraud in law.

So.... now you have my sober thoughts for today, and much more will follow if it is God's will that I complete these little tasks toward the healing of our land. Please remember, it is the people who must humble themselves, pray and seek his face before that healing can come. HE would not save Sodom and Gomorrah without a few righteous, and we need to be a far greater number than they; one for a family, and two for a city. Still a very small minority I admit to see His great mercy on our land; but it was less than one in a thousand who awoke in the Great awakening before 1774; but after the shot heard round the world, almost 2% were in support of the Revolution by the time Boston had been under siege and Marshall law for a year and

half. Surprise; this month I have been under siege of chains for a year and a half; so easily we forget.

Those calld torries, remained loyal to the tyrant, until all his powers were broken, then many still fled away to England, in cowardice. In this 18 months many have fled to the comfort of the system of the tyrant, looking for convenient compromise to hold on to a few temporal trinkets; and for them I am greatly saddened. One day we will all know the right and wrong of this little entertainment, and hopefully we will laugh together at picnics and bar b q s as did Washington and his Friends after the Constitution was in place to guard us against such tyranny by the guaranteed path of peaceful redress. I am a personal witness as to the validity of peaceful redress in our nation and government. Tyrants do not surrender easily.

I am not so foolosh as to think that the braying ass who blurted out the truth on many occasions in this process was not used by God to test my tenacity to walk this entire path. I do believe this is just another part of my training for great things ahead in HIS magnificent Kingdom, soon being more revealed to us all in this age where all truth is revealed and no secrets can be hidden in the lies of the secret coded messages of the government or internet.

Remember, if we fail, even the rocks can praise His majesty and greatness; by His own majesty all of creation praises His wonderful love for us. People are the part of the creation that forget to be a praise, because HE designed us to choose; the rocks have no choice; he made thm as a praise.

Choose ye this day whom ye will serve.....
