Howdy!

Probably tomorrow I'll attempt a call to Bill on the free line.

With thoughts of move, Court process and work to get impeachment filed on judge white and calling family in Idaho and Arizona my stamp and phone supply have dwindled at the moment, of course if I wind up in County Jail again we'll be back to \$25 collect calls so that will be inconvenient.

I mailed the 2255 on wed 10 Sept; on Thurs 18 Sept USAAttY was ordered to file response by 10-3-08 - WOW! Short schedule...

So white acted really quickly and made the schedule very tight.

Yes, of course I expect at least one request for extension, that will depend on how charitable to IRS ire white wants to be.

Yes this could greatly alter all my ideas about transfer and release addresses. If I'm just out and free to go about life and business I'll need to go to Arizona for a little while to help straighten out messes made by this case.

In 1988, and many times since I said that since 1986 I had searched for a good trustee so I could go back into contracting, 20 years later it is not so attractive to be tied to a job and a pay check.

Last time I applied for a job was 1972 and I have no "papers" to satisfy an I-9 so there will be some adjusting.

Things can change fast so be alert.

Just for Comparison; my neighbor across the hall just received word that his prosecutor has 60 days to answer after waiting 4½ months for the order so my schedule is 6 months quicker than his and friend Rusty down the hall has been waiting 5 months and US Atty still requesting extensions.

Praise God Things are moving

God Bless
